Sheet metal fabrication company Melior Laser Kft., increased its supplier position, thanks to a HUF 315 mln technology development investment, which was also responsible for increasing headcount by five, the company reported today.

Last year, Melior Laser reported a record 15% growth in net turnover, surpassing its forecast for the year by 5%.

According to the report, 80% of the company's domestic turnover came from orders from electronic and precision engineering firms.
